

Chronic Health Verification

When a student is identified as potentially requiring a plan to address significant absences associated with a chronic health condition, a medical certification form shall be sent to the parents and returned within (30) school days. The parent, teacher and school administrator shall meet within (15) days following return of the medical certification.

Eligibility Criteria and Action Steps

1. The student is identified as potentially requiring a chronic illness health plan by registration, attendance data, parent or teacher referral.
2. The parents **submit the attached written medical certification (completed by a physician)** to school administration.
3. The appropriate exclusions and exemptions will be determined by the parent, teacher and school administrator according to the following considerations:
 - a. The nature of the health condition relevant to the students anticipated activity level during absences (based on review of the medical certification)
 - b. The student's academic capacity
 - c. The teacher's recommendations for service delivery based on coursework difficulty and student's ability to learn independently.
 - d. The amount of instructional time required by the student for continuous learning.

After the parent, teacher, and administrator have discussed the student's needs, an Exclusions and Exemption Instructional Agreement will be created. This agreement will specify the delivery and return of homework assignments and anticipated contact time with the teacher to assist the student in completing required coursework during absences.

Verificación de Salud Crónica

Cuando se identifica que un estudiante potencialmente requiere un plan para abordar ausencias significativas asociadas con una condición de salud crónica, se enviará un formulario de certificación médica a los padres y se devolverá dentro de (30) días escolares. El padre, el maestro y el administrador escolar se reunirán dentro de los (15) días siguientes a la devolución de la certificación médica.

Criterios de elegibilidad y pasos de acción

1. Se identifica que el estudiante potencialmente requiere un plan de salud para enfermedades crónicas basado en la inscripción, datos de asistencia, referencia de padres o maestros.
2. Los padres **presentan la certificación médica escrita adjunta (completada por un médico)** a la administración de la escuela.
3. Las exclusiones y exenciones apropiadas serán determinadas por el padre, maestro y administrador escolar según las siguientes consideraciones:
 - a. La naturaleza de la condición de salud relevante para los estudiantes prevista y el nivel de actividad durante las ausencias (basado en la revisión de la certificación médica).
 - b. La capacidad académica del estudiante.
 - c. Recomendaciones del profesor para la prestación de servicios basadas en el trabajo del curso, la dificultad y capacidad del estudiante para aprender de forma independiente.
 - d. La cantidad de tiempo de instrucción requerido por el estudiante para continuar aprendiendo.

Después de que los padres, maestros y administradores hayan discutido las necesidades del estudiante, se creará un Acuerdo Instructivo de Exclusiones y Exenciones. Este acuerdo especificará la entrega y devolución de las tareas y el tiempo de contacto previsto con el maestro para ayudar al estudiante a completar el trabajo del curso requerido durante las ausencias.
